### CCS Expands with New Tallahassee Office

The new office is part of the CCS Southeast division, headquartered in Jacksonville with additional offices in Orlando, Miami, Knoxville, Tennessee and Atlanta, Georgia. Chris de Treville will lead the new office, focusing on coordinating commercial growth and managing the Western Florida and South Georgia markets.

"We are very excited to have Chris joining our team," said John Doster, CEO of CCS Southeast. "Chris brings a tremendous amount of experience and his passion for serving customers is well known in our industry." Treville formally served as an account manager at AVI-SPL and has over 23 years of experience in pro AV, along with over 31 years working within the low voltage and pro AV verticals. He is a graduate of Florida State University.

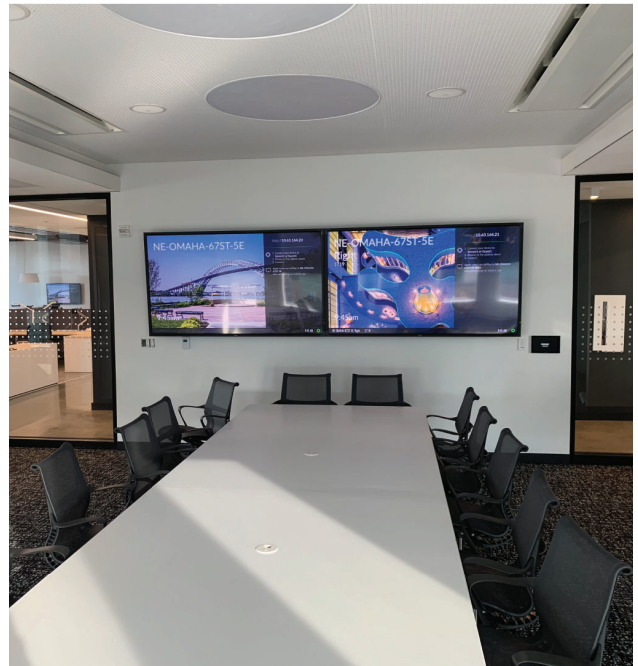

## CCS PROJECT SUMMARY: HDR HEADQUARTERS

CCS was tasked with the Audio-Visual System Design and Build Services for engineering firm, HDR's 10 story Corporate Headquarters in Omaha, NE.

Our design team performed an in depth needs analysis focused on the user experience, architectural constraints and workflow constraints to develop a comprehensive collaboration strategy for over 100 meeting rooms and workspaces.

- Boardroom/Large Conference Rooms – These spaces have dual 80" NEC displays, (2) Shure MXA910 microphone arrays and QSC Speakers for audio conferencing. Mersive Solstice Pods are used for wireless presentation. All control is done via the 10" Crestron Touch Panel or iPad with Launch Port mounting hardware.
- Large Training Room – This space has dual 8,000 lumen laser Epson projectors shown onto a Da-Lite Full Vision custom screen with dual 80" NEC displays on the side wall and a ultra short throw Epson laser projector at the back of the room. Mersive Solstice Pods are used for wireless presentation. Controlled by 10" Crestron touch panel and iPad with Launch Port mounting hardware. Shure hanging microphones and QSC pendant speakers are throughout the space for audio conferencing.
- Virtual Training Room – This space has dual 8,000 lumen laser Epson projectors shown onto a Da-Lite Full Vision custom screen with dual 80" NEC displays in back of the room. At the front and on the side of the room are a QSC PTZ Camera. Mersive Solstice Pods are used for wireless presentation. All equipment is controlled by 10" Crestron touch panel and iPad with Launch Port mounting hardware. Shure MXA910 microphone arrays and QSC speakers are used for audio conferencing. The room also features a SMART Podium.
- Large Training Rooms – Each of these spaces have 12,000 lumen laser Epson projectors with 137" diagonal Da-Lite Screens, (2) Shure MXA 910 microphone arrays and QSC Speakers for audio conferencing. Mersive Solstice Pods are used for wireless presentation. All control is done via the 10" Crestron Touch Panel or iPad with Launch Port mounting hardware.
- Huddle and Small Conference Rooms – These spaces are outfitted with either a 55" NEC or 70" NEC display and a Mersive Solstice Pod for wireless presentation.
- Room Scheduling Panels – CCS provided 7" Crestron touch panels outside of each meeting space that allows attendees to reserve meeting rooms when needed.

# Update your classroom technology

## For less than you think

**SMART  
Board MX  
Series  
With iQ**

## Are you looking to update your classroom technology?

See how our newest, SMART Board® interactive display, the MX series, includes all the essentials teachers need - for less than you think.

### SMART Board MX series with iQ available in 65", 75", and 86":

- Powered with **iQ technology** – Android embedded computing: digital whiteboard, web browser, apps library, and wireless screen sharing.
- **SMART ink™** - write over videos and into PDFs, Microsoft Office® files and websites, then save notes in almost any file type (e.g. .docx, .xlsx, .pptx & .pdf).
- **Simultaneous Tool Differentiation** – frees multiple students to write, erase and move notes at the same time.
- 1-year subscription to **SMART Learning Suite** – Transform static content into interactive experiences with the world's best lesson delivery, assessment, collaborative workspace and game-based learning software suite. Integrates with student devices and includes a desktop and online experience.
- 10 simultaneous points of touch for Win and Mac.
- 4K Ultra HD commercial grade panel rated for 50,000 hours, with front facing speakers, convenience panel, and wall mount bracket.
