## CCS Central States Wins Commercial Integrator Award for Best Government Project

**One System by CCS Presentation Controls All the AV in Lenexa City Center**

CCS Presentation Systems melds community with government in this multi-faceted installation in hometown Lenexa City Center.

You might say the City of Lenexa, Kansas has 2020 vision — or, at least, “Vision 2020.” That was the slogan first conceived in 1997 which recently resulted in the construction of a new Civic Campus and Recreation Center in Lenexa City Center, outfitted with AV by local integrator CCS Presentation Systems.

Vision 2020 means more to the city than a mere slogan, though. The idea was to create a mixed-use neighborhood in downtown that combines walkability, density, sustainability and community.

Joe Fandel with CCS, also a local, followed the progress of the center for 10 years before making a call to the city administration office. He and key project managers discussed the project’s AV design vision and it wasn’t long before CCS was officially offered the job.

## LENEXA CITY CENTER RUNS THROUGH CENTRALIZED CONTROL

Most projects focus on different spaces — recreation centers, civic buildings, meeting spaces, outdoor plazas — as separate entities, or even separate jobs. But the Lenexa City Center project opportunity required CCS Presentation Systems to combine all of those types of spaces into one unified system.

# NEW CCS SOUTHERN CALIFORNIA OFFICE OPENS

## Lifestyle Technology Group Represents 12<sup>th</sup> U.S. Partner for CCS

SCOTTSDALE, Ariz. (June 26, 2018) – CCS Presentation Systems, one of the largest leaders in audio-visual integration across the United States, has partnered with Lifestyle Technology Group of Newport Beach, Calif. to join the CCS national team network for AV integration.

Under the partnership, CCS and Lifestyle Technology Group will provide commercial contractors, educational institutions, luxury homebuilders and additional end users with full-service design/build and maintenance program support throughout Southern California.

Lifestyle Technology Group was founded by systems industry technology veteran Dave Sell in Newport Beach. Dave has over 25 years of industry experience including serving as a former executive at Crestron Electronics, the world’s leader in automation solutions.

“Lifestyle Technology Group is excited to partner with the prestigious CCS Presentation Systems to provide AV systems integration for empowering companies in Southern California to the next level with cutting-edge audio visual tools,” said Dave Sell, Lifestyle Technology Group President.

The CCS California expansion will provide client counsel of product selections, establish enterprise standards and achieve overall ROI of technology systems for delivering customized solutions to match a client’s specific business requirements.

“The expanded reach in California creates additional opportunities and support for providing our customers the best in audio/video products and solutions,” said John Godbout, CCS Presentation Systems Founder and CEO.

CCS offers multiple product lines to enhance presentation effectiveness and customer experiences including interactive software, unified communications, network operation centers, large format LCD displays, video walls, room control systems, digital projectors, collaboration tools and digital signage.

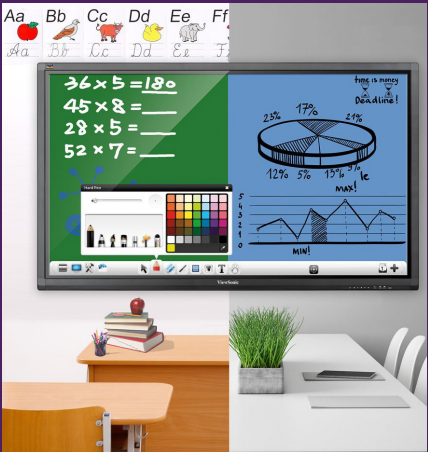

# NEW FEATURED PRODUCTS

The Mersive Solstice Pod transforms ordinary meeting and learning spaces by placing content at the center of the meeting experience. With a Pod in the room, multiple participants can share and control meeting content from their laptops and mobile devices on the in-room display, driving better collaboration and decision making.

# CCS Makes CRN Solution Provider 500 List for the Last Five Years

The Channel Company’s 2015 CRN® Solution Provider 500 is an annual award list that spans eight categories, from hardware and software sales to managed IT services. It recognizes the top revenue-generating technology integrators, MSPs and IT consultants in North America. Providers are ranked based on revenue, determined by product and services sales during 2014. CCS Presentation Systems has been named to this prestigious list for 2015. With more than 27 locations nationwide, CCS ranked 181 out of 500 on the provider list. CCS Presentation Systems was ranked on the CRN provider list in 2014 as well.

The IT industry continues to undergo a number of fundamental transformations, including the accelerating shifts to cloud computing and software-defined technologies, and the rise of new technologies such as artificial intelligence and the Internet of Things.

The channel is smack in the middle of these changes, of course, with solution providers leading the way in helping businesses and organizations take advantage of the new technologies.

# NEW LOOK, NEW US

We are pleased to announce the launch of our brand new website! After 10 months of hard work and dedication, we are delighted to officially announce the launch in June, 2018.

Our goal with this new website is to provide our clients and customers an easier way to learn about CCS’ services and solutions and also to allow the visitor to browse information based on their own choice. The new website is interactive and gives better access to About Us, Services, Solutions, Markets, Resources, and CCS Office Locations and web pages. Our current and prospective clients will find useful trending information about our services on the homepage of our website. The Markets will highlight the projects we have completed and outline the value created for each client as a result. Our new Solutions page will provide information on what CCS can do for your facilities and spaces.

Check us out! <https://ccsprojects.com/>
